Draught: 5,5 meters
Maximum Speed: 23,5 knots
Propulsion: 2 SEMT Pielstick 12 PC 2 V400 diesel engines 8,900 kW (12,000 bhp), 2 shafts

OVERVIEW

The D'Estienne d'Orves-class avisos, also known as the A69 type avisos, is a class of avisos, comparable in size to a light corvette, mainly designed for coastal anti-submarine defence, but are also available for high sea escort missions. Built on a simple and robust design, they have an economical and reliable propulsion system which allows them to be used for overseas presence missions.
